# THEO. H. DAVIES & CO., Ltd. POOR MEN FORESTALLED

Editor Advertiser: I would like to call your attention to a transaction which occurred in this district. A certain contractor is doing some work near the Ewa mill. Before starting on same he had an interview with a man here in regard to hauling the material, filling in, etc., and promised him the work. This man had his teams all ready and waiting for the contractor to commence. What was his surprise on going to the works the first day they started to find that the plantation people had hauled all the stuff into the ground also furnished mule teams to be used while the work was in progress, and have further offered mules Punika (k) to Naone (w) et ali .... D and scrapers to do the filling in of the grade? Is it fair or just that a rich Co. should step in and do private work, D thereby depriving poor men from earn-but two different parties applied to

Judged either by the sugar market or the local ratings of stocks, it has not been too bad a week. Raw sugar in New York on the 17th was quoted at 4.24c pound, \$84.80 ton, and on the 24th at 4.30c pound, \$86 ton. Yesterday's cable did not mention 96 degree test centrifugals, but showed a drop in European beets from \$91.20, the previous day, to \$90.80 a ton. Willett & Gray, New York, in their circular of June 8, say that Cuban producers are holding back sugar for better prices and at the same time the refiners are meeting with a smaller demand. While the New York market had been steady the European market had continued to fluctuate. It is stated by Willett & Gray, as something of considerable importance, that the receipts from Java will be very much less than last year at a time when they may be especially required by refiners.

Transactions of the Honolulu Stock and Bond Exchange for the week were light in stocks, but comparatively heavy in bonds, the combined lists being as follows: O. R. & L. Co. (\$100), 5 at \$78, 5, 30 at \$77.50; Hawalian Sugar (\$20), 5, 5 at \$35; Henokaa (\$20), 5 at \$18; Kihei (\$50), 20 at \$10; Pioneer (\$100), 10, 15, 69, 50 at \$150; H. C. & S. Co. (\$100), 25 at \$83; Ewa (\$20), 40, 65 at \$29, 10 at \$28.875, 15 at \$28.75, 115 at \$29; Waialua (\$100), 50 at \$70; O. R. & L. Co. 6 per cent bonds, \$4000 at 104.75, \$3000 at 104.66 2-3; Waialua 6 per cent bonds, \$30,000 at 101.25. Dividends were declared by Inter-Island Steam Navigation Co., regular I per cent and special 7 1-2 per cent, and Wilder's Steamship Co., 3 per cent, the last two having reference to the amalgamation of the two steamship companies.

It is rumored that the Pioneer dividend will be increased from one per cent to two per cent monthly. Dividends, however, do not appear to influence the prices of stocks hereabouts. Hawaiian Sugar Co. (Makaweli) stock has not responded to a higher dividend. Neither has Onomea. Honokaa has actually weakened since its dividend was increased to three-fourths of one per cent monthly. Waialua has advanced strongly, the influence in its favor being that of the big storage dam under construction. There are good reports of Honolulu, the plantation that is refining its own sugar, a belief/being current that at the close of this season it will be clear of indebtedness other than bonded. Though no sales of Ookala are reported for the week, it is said to be the firmest on the market. Kekaha, an unlisted stock, cannot be had under \$250. Waimea, having put its troubles largely behind, has been replaced on the exchange. Kahuku has weakened slightly. Ewa closed at \$29, the highest figure of the previous week, which is regarded as its conservative limit.

Prank P. Sargent, Commissioner, and Victor S. Clark, an attache of the Bureau of Labor, Washington, who have been investigating conditions on the ground, are of the belief that no special legislation by Congress in behalf of Hawaiian plantation labor can be expected. Both of these officials advise that the best hope of the Territory lies in the immigration of elements assuring a permanent source of agricultural labor. Secretary A. L. C. Atkinson, who has returned from his refunding mission to New York and Washington, has expressed himself as president of the Territorial Board of Immigration, Wm Bacle and wf to Marie R von a body created by the late Legislature, in a manner indicating favor to the Holt, M; por R P 1980 and pe land, Ka-idea of Messrs Sargent and Clark. He will promote the introduction of white immigrants providing homesteads for families of such can be procured.

James F. Morgan yesterday had again to postpone, this time to July 8, the sale of Manoa and Palolo lands in the Caterina Wright mortgage. Next Saturday he will sell T. McCants Stewart's properties at Kalihi and Kaimuki. On Thursday he will sell five tons of old copper wire. Properties in Morgan's hands to sell include L. B. Kerr's Waikiki beach place, the Rickard property in King street opposite the Melrose and a half interest in leasehold and buildings at River and Kukui streets. Mr. Burney has bought a house and lot, the Tell property, for \$2500 at private sale. Fisher, Ables Co. realized \$432.50 for the old buildings of Long Branch resort, where Alexander Young is creating a marine park in conjunction with Moana hotel.

An additional article in the San Francisco Examiner makes a special point of the importance of the Hawaiian trade to San Francisco. Goods shipped from that port to Hawaii increased from \$3,000,000 in 1894 to \$9,816,544 in 1904, or more than trebled. Without the Hawaiian trade the outward commerce of San Francisco in those ten years shows a decrease of 1.6 per cent, but counting in the Hawaiian trade there is an increase of 29 per cent.

Bids have been opened by the Superintendent of Public Works the past week for public improvements out of loan funds which involve an expenditure of from \$90,000 to \$100,000. It is announced from Washington that construction of the quarantine wharf here will be pushed. The Builders and Traders' Exchange has reorganized on a new basis, dropping out its collecting agency. A new wing to the Queen's Hospital costing \$65,000 was formally cpened on Friday. The Hawaii Promotion Committee has reason to expect an early increase of tourist travel to the Islands. Diversified industries have strong, P A; special powers. B 274, p a new corporation to their credit, the Garden Island Honey Company, Ltd.
